## NANUK™

PROFESSIONAL PROTECTIVE CASES

## NANUK™ features

### Powerclaw superior latching system

U.S. Patent 8,297,464

The patented PowerClaw Latching System used on all NANUK™ cases is engineered to keep your case closed during the toughest of missions. The PowerClaw clamps the case tightly closed using compressive force while the integrated slide lock prevents the case from opening during transport or when dropped. The super tough nylon construction ensures your precious items remain safely inside the case no matter where the journey takes you.

### Waterproof - IP67 rated

Water and dirt are the enemies of sensitive equipment. NANUK™ cases are IP67 rated to ensure that your equipment stays dry and dust free. An IP67 rating requires the case to be watertight to a depth of 1m (3.3ft) for a period of 30 minutes and to be impervious to dust.

### Automatic pressure release valve

Changes in altitude and geographic location creates a vacuum which can effectively seal a case shut. NANUK™'s integrated auto-pressure valve equalizes this atmospheric pressure difference. Using state-of-the-art technology, the micro vent allows air to pass through while preventing water from entering.

### Seal

The seal used in all NANUK™ cases is custom designed to fit our cases. The seal is constructed of high quality EPDM to minimize material deformation and fatigue and provide a watertight seal that will last.

## Indestructible NK-7 resin

NANUK™ was designed with one objective in mind: survival. With rounded corners, thick wall construction and oversized details, NANUK™ is built to absorb the shocks without compromising the case or more importantly your contents.

Based on Plasticase's years of experience in the plastics industry, our new NK-7 resin was developed specifically for the demanding conditions that NANUK™ will be exposed to. Highly impact resistant, light, and rugged, our NK-7 resin can withstand nature's extremes.

## Certifications

NANUK™ is tough and durable, but don't just take our word for it. NANUK™ cases were tested by an independent testing laboratory for compliance with the following standards:

**ATA Specification 300**

**Category 1 Impact**

**ASTM D-4169 DC-18 Drop - Vibration - Rainfall**

**MIL-STD-810F Immersion**

**IP67 Ingress protection**

NANUK™ cases tested were awarded certification after successfully completing the tests. Visit [nanuk.com](https://www.nanuk.com) to find out more.

# Case accessories

The only thing that can make our cases even better is accessories. Our cases are designed to protect your investment and to help you get the most out of your case we offer easy to install accessories. Whether you need added protection on the inside of the case with our foam and divider options or need to protect your contents during the journey with a TSA padlock, we have the accessories you need.

## Cubed foam

Made of high quality polyurethane foam, the multi-layered set of customizable inserts includes a pre-scored removable layer. This layer consists of foam squares that can be removed in various configurations to accommodate the contents of the case. This solution is ideal if you are seeking a quick and easy way to protect and organize your items.

# TSA PowerClaw latch retrofit kit

We found a way to make our patented PowerClaw latches even better! They are now available with an integrated TSA accepted key lock. The easy to install retrofit kit can be installed on many\* NANUK™ cases and adds another layer of security to your case. Each lock has a special code TSA001 to TSA003, which is used by the TSA, CATSA and other security agencies to know which secure tool to use to open the latch. TSA accepted latches are the perfect accessory for storing, securing and protecting valuable items at home, on the job site and in your vehicle.

\*Compatible with the following NANUK™ cases:

908 | 918 | 920 | 925 | 933 | 935 | 940 | 945 | 950 | 960

EACH KIT CONTAINS:

- 2x TSA Powerclaw latches
- 2x Coded TSA keys
- 4x installation pins (2x short, 2x long)

## Padded dividers

If you require compartmentalized protective organization of your components or equipment, our padded dividers are the right choice. Easily tailored to your needs with repositionable tongue and groove fasteners, our padded dividers are designed to easily organize and protect your equipment.

\*Available for NANUK™ 905 – 960 cases.

## Waterproof panel kit

A panel kit can easily be added to most of our NANUK™ cases thanks to an integrated panel mount system. Included in our panel kit is a contoured panel with mounting screws and an adhesive backed die-cut gasket. A lid mounted panel kit is available for the 908, 909, 910, 918, 923, 933, 935, 950 and 960 cases. The lid mounted panel kit does not contain a gasket.

\*Available for NANUK™ 903 – 960 cases.

**910** | Aluminum panel

**910** | Lexan panel

**Padded dividers**

## Shoulder strap

Our neoprene shoulder strap incorporates Aircell™ comfort technology to reduce fatigue when transporting your case. The shoulder strap can easily be attached to most NANUK™ cases without any additional hardware.

\*Compatible with NANUK™ 905 – 945 cases.

## TSA padlock

TSA padlocks offer the security of a padlock but can easily be opened and inspected by airport security and then locked again. A visual indicator lets you know when the case has been opened with a TSA key.

\*Compatible with NANUK™ 903 – 995 cases.

Shoulder strap

## Desiccant container

NANUK™ reusable desiccant containers protect all types of sensitive gear from deterioration, corrosion, mold and other damage caused by moisture or high humidity. Simply place the desiccant container inside the case along with your items. The desiccant container will absorb up to 34% of its own weight in water vapor to rapidly remove moisture and keep your case dry to protect against damage.

Silica gel beads are orange in color when active (dry). The gel beads will gradually change color from orange to green as they absorb moisture. Once the gel beads turn green, they are no longer active and must be heated to remove the accumulated moisture using a conventional oven at 250° F for 3 hours. Avoid overheating while drying. When the color of the gel beads returns to orange, the container is ready to be reused.

## Lid organizer

The NANUK™ Lid Organizer is the ideal organization and convenience accessory to add to your case. The molded interior is designed to help keep your hardware, power cords and accessories entirely organized and in-view. The lid organizer includes a set of mounting screws for easy, stress-free installation. Features include three zippered and anti-tear compartments of various sizes for lots of gear storage.

\*Available for the following NANUK™ cases: 920 | 930 | 933 | 935 | 945 | 955 | 960

Suggested uses:

- Camera accessories • Cables • Gaffer tape • LCD hoods and shades
- Video accessories • Lens and body caps • Chargers • Sunglasses • Tools
- Light meters • Camera triggers • Memory cards • Cleaning equipment
- Microphones • And many other accessories

Zippered & anti-tear compartments

The molded interior has been engineered to protect and maximize gear storage in the case

Keep your hardware and accessories organized

## NANUK™ | services

NANUK™ has the in-house ability to develop a project from its initial idea, all the way to a market-ready finished product. Whether it involves printing, custom interiors, or OEM integration, NANUK™ can provide a turnkey solution that is on budget and on time. Make us part of your winning team.

Contact us today and we will show you how we can turn an idea into a success story.

# CUSTOMIZE YOUR CASE

## Custom foam interiors

If your application requires a customized interior solution, specifically adapted to the contents of your case, a custom foam interior is the way to go. Let our experienced team of case designers help you optimize the layout of your components to ensure the utmost protection of your products and equipment. We will also ensure that the correct type of foam is used for your application whether it be polyurethane, polyethylene, or EVA.

# Custom printing

What better way to make your mark than to have your company's logo or product branding printed in color on our cases? Simply send us your artwork and our experienced graphic designers will work with you to convey your message in the most effective and unique way.

# Custom integrated panels

Not just a case: our case designers can help you incorporate your electronic instruments into NANUK™. With our integrated panel system you can take full advantage of our OEM housing solution. Simply provide us with your equipment specifications and we will develop an innovative portable unit tailored specifically to your needs.

# Custom colors

NANUK™ protective cases are available in up to 10 colors. Color options range from emergency orange to olive drab allowing you to blend in or stand out, whatever the task entails. If your application requires a custom color to match your logo or brand, our design team can develop the exact color you need based on a color swatch or sample. We know how important it is for your brand to stand out. A NANUK™ case in a custom color may be the perfect solution.

\*Minimum quantities required.

## OEM integration

Need to add cooling ports or water resistant electrical connectors to the outside of your case? Plasticase's team of designers have the creativity and experience to develop innovative solutions for your mobile workstation requirements. We will analyze your needs and provide expert advice starting from initial design concepts through to production and final assembly.
